

Christiana Edem Julius

Frontend Developer

Loc: Ado-Ekiti, Nigeria • Email: juliuschristiana585@gmail.com • Web: github.com/logicgirl

ReactNext.jsTailwind CSSJavaScriptHTML5 / CSS3

I build clean, responsive, and interactive web experiences. Combining a background in **Philosophy** with hands-on frontend development, I bring structured thinking to every UI challenge -- from pixel-perfect layouts to smooth user interactions.

SKILLS

Languages

Frameworks

UI & Design

Tools

Currently Learning:

HTML5CSS3JavaScript (ES6+)

ReactNext.js (App Router)Tailwind CSS

Responsive DesignCSS AnimationsFigma (basic)Accessibility

GitGitHubVS CodeVercelChrome DevTools

TypeScriptReact QueryFramer MotionJest & Testing Library

PROJECTS

Personal Portfolio Website

A fully responsive personal portfolio built from scratch with pure HTML, CSS, and vanilla JavaScript. Features smooth scroll navigation, CSS animations, a mobile-first layout, and a working contact section.

- Mobile-first responsive layout
- CSS keyframe animations & transitions
- Smooth scroll & active nav highlighting

Weather Dashboard

A real-time weather app that fetches live data from the OpenWeather API. Users can search any city and see temperature, humidity, wind speed, and a 5-day forecast with a clean card-based UI.

- Live data via OpenWeather REST API
- 5-day forecast with weather icons
- Search history with localStorage

Task Manager App

A fully functional task management app built with React. Users can create, edit, delete, and filter tasks by status. State persists across sessions via localStorage with zero page reloads.

- React state & component architecture
- Filter by All / Active / Completed
- Persistent state via localStorage

Movie Discovery App

A movie browsing platform powered by the TMDB API, built with Next.js App Router. Browse trending films, search by title, and view full detail pages with cast info, ratings, and trailers.

- Next.js App Router + server components
- Dynamic routes for per-movie detail pages
- Search, trending & genre filtering

EXPERIENCE & TRAINING

Frontend Developer (Self-Directed Learning)

Independent Study & Project Building

Ongoing

- Built and deployed multiple frontend projects across HTML/CSS, vanilla JS, React, and Next.js.
- Practiced responsive, mobile-first design using Tailwind CSS and modern CSS layouts (Flexbox, Grid).
- Learned component-based architecture, state management, and API integration through hands-on projects.
- Versioned all work with Git/GitHub and deployed live sites via Vercel.

Peer Mentor -- Programming Fundamentals

Piscine-JavaScript Curriculum

2025 - Present

- Guided peers through core programming logic, debugging, and problem-solving strategies.
- Built strong foundations in algorithms and data structures that directly support frontend performance thinking.

National Youth Service Corps (NYSC)

Certificate of National Service

Completed 2024

- Completed mandatory national service in Nigeria.
- Background in Philosophy sharpens analytical thinking and structured reasoning -- key skills for breaking down complex UI/UX problems.
